Carefree and rewarding! Alliums will tolerate poor garden soil and once established will naturalize easily. They are deer resistant and make excellent cut flowers. Hardiness Zones: 3-8. Mature Height: 24 - 32 inches. Bloom Time: Late spring (May). Light Requirement: Full Sun.
Allium schubertii

$6.00 / $3.00 Member Price

Extremely large blooms (up to 14"!) with small, reddish-purple flowers in May-June. Carefree and rewarding! Schubertii looks great at the front of a flower border throughout the season, even with its dried flower head. They will tolerate poor garden soil; once established, they will naturalize easily. Alliums are deer resistant and make excellent cut flowers. Hardiness Zones: 4-10. Mature Height: 20 inches. Bloom Time: Late spring to early summer. Light Requirement: Full Sun.
Camassia Blue Melody

$4.00 / $2.00 Member Price

Crocus Whitewell Purple

$.80 / $.40 Member Price

What a fascinating daffodil this is! Vibrant lemon-yellow blooms are highlighted by snowy white cups that mature in the garden to a richer, creamier shade. Pipit produces 2 to 3 flowers on each strong stem, making it ideal for creating lush bouquets or arrangements. The fresh, citrusy hue stands out in sun-drenched borders and especially in large mass plantings. We like to see Pipit planted in drifts where its color is on full display. Deer tend to avoid daffodils. Hardiness Zones: 4-9. Mature Height: 14 - 16 inches. Bloom Time: Mid to late spring (April-May). Light Requirement: Full Sun, Half Sun / Half Shade.
Daffodil 'Thalia'

$2.00 / $1.00 Member Price

A most stunning white daffodil. This exquisite Narcissus is the snowiest white of all the white Daffodils. It produces 2-3 fragrant blossoms per stem. An ideal garden perennial. Makes a great cut flower for displays and is deer resistant and container friendly. Hardiness Zones: 4-9. Mature Height: 14 inches. Bloom Time: Late spring (Apr-May). Light Requirement: Full Sun, Half Sun / Half Shade.
Fritillaria mealeagris

$2.00 / $1.00 Member Price

Galanthus nivalis 'Hippolyta'

$3.50 / $2.00 Member Price

For a unique take on a classic shade lover, we suggest checking out Hippolyta. This award-winning snowdrop can't be beat for early-season beauty and imparting a light, bright look to darkened areas of the landscape. It boasts fully double flowers of spring green and snowy white that are delightfully charming grown in dappled borders, decorative pots, rock gardens, and woodland areas. Its velvety petals and well-shaped form make it the ideal foil for more rustic sites. Plus, Hippolyta's well shaped blooms are an improvement over the traditional 'flore pleno' variety. It has quickly become a favorite of garden pros, both in the U.S. and Holland. Deer resistant, container friendly, and naturalizes well. Hardiness Zones: 3-9. Mature Height: 5 - 8 inches. Bloom Time: Late winter- very early spring. Light Requirement: Half Sun / Half Shade, Full Shade.
Muscari armeniacum

$.75 / $.35 Member Price

An early blooming variety with bright blue, bell-shaped flowers in grape-like clusters about 6-8" tall. Ideal for borders, rock gardens, naturalizing or co-planting with tulips or daffodils. If left undisturbed, they multiply rapidly. May also be forced indoors. Deer resistant, container friendly, and naturalizes well. Hardiness Zones: 3-8. Mature Height: 6 - 8 inches. Bloom Time: Mid- to late spring. Light Requirement: Full Sun, Half Sun / Half Shade.

$2.50 / $1.25 Member Price

Narcissus ‘Tete a Tete’

$2.00 / $1.00 Member Price

Yellow cup, reflexed petals. Early flowering from March into April. Cyclamineus. These fabulous narcissus pack superior color and form in miniature size. Cyclamineus bring a different perspective to the garden with their short "necks" that present a single flower at an acute angle to the stem. Perfect for rock gardens, borders, beds, window boxes and naturalizing.
Narcissus Sir Winston Churchill

$2.50 / $1.25 Member Price

Nectaroscordum siculum

$2.00 / $1.00 Member Price

Clusters of bell-shaped greenish flowers, flushed purple and edged white. Carefree and rewarding! They will tolerate poor garden soil; once established, they will naturalize easily. Deer resistant and makes excellent cut flowers. Hardiness Zones: 4-10. Mature Height: 36 inches. Bloom Time: Late spring to early summer (May-June). Light Requirement: Full Sun.
Unusual bell-shaped flowers that are extremely hardy. They naturalize easily. Also recommended for indoor forcing. One of the most popular scilla varieties, brilliant porcelain-blue, which produces masses of early spring color. The choice for a strong color accent between your shrubs and trees. Delightful gentian-blue flowers show best when planted closely in large drifts. Very hardy and a great bulb for naturalizing; bulbs will produce more flowers each year! Deer resistant. Hardiness Zones: 3-8. Mature Height: 4 - 6 inches. Bloom Time: Mar - Apr (Early to mid-spring). Light Requirement: Full Sun, Half Sun / Half Shade, Full Shade.
Tritetelia 'Aquarius'  
$2.40 / $1.20 Member Price

As the hot days of summer approach, the charming colors of spring-blooming flowers begin to fade from the landscape. These gorgeous double-flowered bulb variety will quickly fill the spaces left behind by the departing spring blooms. Triteleia 'Aquarius' bestows an abundance of 1" flowers in a rich, deep blue hue to full sun borders, cutting gardens and mass plantings. Though they are highly attractive to garden visitors, hungry deer won't bother them, so there's no danger of losing half your planting to these animal pests. Hardiness Zones: 5-9. Mature Height: 16 - 20 inches. Bloom Time: Early summer. Light Requirement: Full Sun.
Exploding with petals in nearly true blue, no other variety has such wow factor! One of the most popular late-flowering double tulips. A perennial favorite, these spectacular blooms are also known as peony tulips due to their large number of petals. Sporting vivid colors atop tall stems, these beauties offer a long-lasting accent. When fully open, some blooms reach an impressive 4" across. Incorporate these large doubles in rock gardens, beds, borders, and more for maximum impact.
Tulip Bull's Eye

$4.50 / $2.25 Member Price

One look at this unusual yet thoroughly enchanting double-flowered peony tulip and you will fall in love! Bull's Eye is unlike anything we've seen before in a peony tulip. For extraordinary color and form, you can't get any better than this special newcomer. It boasts extra-double, fresh green orbs that open first, followed by the fluffy, ruby-red centers. Placed in a border or mixed perennial bed, they will stand out and bring all eyes to the garden. We like these colorful flowers alongside bright pink, white or yellow tulips with a traditional shape for a dramatic contrast of hues, textures and forms. Makes a great cut flower. Hardiness Zones: 3-8. Mature Height: 14 - 16 inches. Bloom Time: Late spring (May). Light Requirement: Full Sun, Half Sun / Half Shade.
Tulip Kingsblood

$1.90 / $.95 Member Price

Tulip 'Little Beauty'

$1.30 / $.65 Member Price

Magenta petals opening to a violet to blue center with a lighter edge. Plant these dainty garden gems once and they will come back year after year. Perfect for adding color and interest to rock gardens or the front of borders. Great for containers and naturalizes well. Hardiness Zones: 3-8. Mature Height: 4 inches. Bloom Time: Early to mid-spring (Mar-April). Light Requirement: Full Sun, Half Sun / Half Shade.
Tulip Salmon Van Eijk

$1.90 / $.95 Member Price

Garden elegance and subtle hues go hand in hand. The graceful cup-shaped flower form of Salmon Van Eijk is played up nicely by its soft salmon-orange coloration and hints of deep pink. Homeowners and landscapers alike will adore this new tulip variety for its uniquely gentle palette but also for its strong, robust growth habit. Like other Darwin Hybrids, Salmon Van Eijk is exceptionally weather-resistant and a prolific bloomer. It perennializes like a dream, returning yearly with excellent dependability. To get the most out of these gorgeous tulips, we suggest clustering them throughout a sunny border or mixed cutting garden. They are also well suited to mass plantings. Makes a great cut flower. Hardiness Zones: 3-8. Mature Height: 14 - 16 inches. Bloom Time: Mid-spring. Light Requirement: Full Sun, Half Sun / Half Shade.
Tulip tarda

$1.90 / $.95 Member Price

Tulip Vanilla Coupe

$5.30 / $2.65 Member Price

An uncommonly-pretty NEW tulip. One look and you'll see that truly unique gardens deserve this one-of-a-kind tulip to set them apart. Vanilla Coupe is a distinctive double tulip that resembles a scoop of delightfully dreamy ice cream. The huge 5" blooms sit atop 20-22" stems and feature lush layers of creamy, pale yellow petals that are gently enveloped by a single layer of fresh green petals. It makes an amazing cut flower, giving a striking look to mixed bouquets or single-variety arrangements! Makes a great cut flower and is container friendly. Hardiness Zones: 3-8. Mature Height: 20 - 22 inches. Bloom Time: Late spring. Light Requirement: Full Sun, Half Sun / Half Shade.
